- b. Approval of Bills in the amount of \$157,684.30.

Councilman Critchlow had questions about the bills. He asked about the Falcon Auto repair. Mayor Marshall answered that was for repairs on the vehicles that were lease returns. They had to be repaired prior to their return. Councilman Critchlow inquired about the vinyl wraps. Chief Enslin explained the vinyl was removed from the lease return vehicles, and an unmarked vehicle was changed to a marked vehicle to be put into patrol. Councilman Critchlow asked about the Geneva Rock bill listing sidewalk repairs. Mayor Marshall answered that was for replacements of sidewalks when the City has had water meter repairs and such. Councilman Critchlow then asked what the maintenance was on the South Willow Well. Mayor Marshall stated it was maintenance on the SCADA system. Councilman Critchlow commented there is a bill for the Fire Department for a siren box. He explained he called to find out what it was. It was on the oldest Fire Chief's truck; the siren box was shorted out and needed to be repaired. Councilman Critchlow asked about the gas bill for the snack shack. He thought it was for the cook shack at the rodeo grounds and wondered why we were paying when the building was empty. Finance Director, Sherrie Broadbent, explained the gas bill for the snack shack is at the baseball field and the power bill is for power at the Justice Center construction site.

Councilwoman Allen commented on a bill for Aqua Engineering for Walmart parking expansion. Ms. Broadbent stated they are helping with the inspection of the Walmart expansion to make sure it is to the correct specifications. It is part of the building permit fee.

Motion: Councilwoman Allen made a motion to approve the summary action items as presented. Councilman Colson seconded the motion. The vote was as follows: Councilman Critchlow, "Aye", Councilwoman Allen, "Aye", Councilman Tripp, "Aye", Councilman Colson, "Aye", and Councilwoman Sparks, "Aye". The motion carried.

4. **Consideration of Ordinance 2017-05 amending the General Plan at approximately 625 South Willow Street for 6.43 acres for MJC Holdings, LLC to go from a "Rural Residential -1" designation to a "Low Density Residential" designation.**

Mayor Marshall explained this property is next to Hollywood Court. He reported there were no problems from the Planning Commission. Councilwoman Sparks asked where this is located. Mayor

Marshall answered it is on the south side of Hollywood Court on Willow Street. Councilwoman Sparks asked if there were issues on this similar to the problems on Hollywood Court. Councilman Critchlow stated no one spoke against this at the Planning Commission Meeting. Councilman Tripp and Councilwoman Sparks stated they were not enthused about this amendment.

John Bilton represented MJC Holdings. He explained MJC Holdings is the same group that developed Heritage Grove. He stated they are willing to install a hammerhead for a turn-around to meet the requirements of the fire department. He remarked they are flexible on it. Mr. Bilton reported they are planning to put the road in the middle rather than the edge. They have looked at a few options. Mr. Bilton said after reviewing the General Plan Map, they feel this amendment is consistent with the area.

Mayor Marshall explained the problem with Hollywood Court cul-de-sac was that once it was realized the cul-de-sac was not to the City's specs, the City approached the developer and was told that it was approved and would not make any changes. Mayor Marshall commented because the developer was reluctant to make the cul-de-sac larger, it was being brought up on this proposed amendment. Mr. Bilton commented on the Heritage Grove Subdivision and stated they want to do the right thing. Mayor Marshall pointed out in the Heritage Grove subdivision has had some settling that the City has had to repair.

Councilman Critchlow commented on the General Plan and this property is in an agricultural zone. Councilwoman Allen stated there are concerns about amending the General Plan and the Council approaches them with caution. She asked what the reason is for the request for the General Plan amendment. Mr. Bilton answered it is due to the geography of these five (5) lots; they have been building on half acres and feel that is where the demand is in the market. He said while developing in other communities, he has found that if the lots are too deep, over time as density increases, owners do not want huge backyards. Mr. Bilton reported they allow multiple homebuilders to come into their projects. He added most of the homebuilders in the Heritage Grove Subdivision were local builders.

Motion: Councilwoman Allen made a motion to deny Ordinance 2017-05 amending the General Plan at approximately 625 South Willow Street for 6.43 acres to go from a "Rural Residential – 1" designation to a "Low Density Residential" designation. Councilman Colson seconded the motion. The vote was as follows: Councilman Critchlow, "Aye", Councilwoman Allen, "Aye", Councilman Tripp, "Aye", Councilman Colson, "Aye", and Councilwoman Sparks, "Aye". The motion carried and Ordinance 2017-05 was denied.

5. Consideration of Ordinance 2017-06 amending the General Plan at approximately 1052 South Hale Street for 80 acres for MJC Holdings, LLC to go from a "Rural Residential -1" designation to a "Low Density Residential" designation.

John Bilton was present on this item as well. Mayor Marshall explained when this property was annexed into the city; it was given the "Rural Residential – 1" designation and now they are asking for a half acre zone. Mr. Bilton stated when they met with the Planning Commission, quite a few residents came out to oppose this request. He had conversations with the residents and the homeowners' association from this area about their plans for the development. Mr. Bilton remarked it was interesting that they were not here tonight, but stated he appreciated their feedback. He explained they plan to develop this property in four phases. They plan to start on the south end of the property and work their

way north. He commented they have met with Aqua Engineering. They are aware of the sewer and water issues. Mr. Bilton said they have had really good feedback from the neighbors.

Mayor Marshall pointed out the Planning Commission voted to deny this amendment.

Councilwoman Sparks expressed concerns about the access to the subdivision. Mr. Bilton answered they are going have to work on things to route construction traffic. He stated they are willing to work with the City. He added this is in the very preliminary phase. Councilwoman Sparks asked if they are planning to develop half-acre lots or a variety of sizes. Mr. Bilton answered they would like to have some variety in the layout and well-designed open space. Mayor Marshall explained the sewer would need to be modeled. He stated we also have issues with providing sidewalks for children to walk to school.

Councilwoman Allen pointed out that Mr. Bilton is the first developer to mention open space. She expressed her appreciation and stated she hopes he continues to keep it in mind.

Councilman Colson recommended Mr. Bilton go through the PUD process.

Motion: Councilman Colson made a motion to deny Ordinance 2017-06 amending the General Plan at approximately 1052 South Hale Street for 80 acres to go from a “Rural Residential – 1” designation to a “Low Density Residential” designation. Austin Allred represented the SR112 Development Group. Mr. Allred explained they own twelve and a half (12 ½) acres along SR112, which is currently zoned as commercial. He stated the City’s Future Master Plan of the property is RM-15. They would like to take five (5) acres and rezone it as RM-15. They will leave over seven (7) acres as commercial. Mr. Allred expressed a need for rooftops to attract commercial businesses.

Mayor Marshall asked if they are planning to put in apartments or townhomes. Mr. Allred answered they are considering apartments. He added apartments are in high demand in the Tooele valley. Mr. Allred reported he has built a similar unit in Saratoga Springs that they are considering for this property. He explained the buildings would be professionally maintained and any issues would be handled in-house. He listed some of the businesses that may be willing to move to the property.

Councilwoman Allen asked about the unit in Saratoga Springs. Mr. Allred answered it is six (6) buildings with twelve (12) units per building, there are four (4) units per floor with three (3) floors. Councilman Tripp explained that he recalled this was agricultural property but Jay R. Didericksen purchased it and considered putting his mortuary there, so it was rezoned commercial. Councilman Tripp pointed out one of the problems Mr. Didericksen had was that UDOT would only allow a right

turn into the area. He expressed his concerns about UDOT access. Mr. Allred explained they have met with UDOT several times. He reported they purchased Mr. Didericksen's property. Mr. Allred stated UDOT has allowed them to have two accesses. They will have one full access and one that will be a right turn in and right turn out.

Councilman Tripp remarked that Grantsville has very little commercial zoned property and asked what positives there are by changing this from a commercial zone to a residential zone. Mr. Allred answered it will create a community where people can have a transition place. He expressed a need to have more growth to attract commercial businesses. Councilwoman Allen stated there is no question, there is growth but the question is affordability. She explained her concerns about high-rise apartment buildings in rural Grantsville.

The Council expressed concerns about how this property will end up in the future. Councilwoman Sparks said she is in favor of this project. She explained she felt this is the perfect spot for this kind of development. She added there is a need for this type of development.

Councilwoman Allen asked if this is similar to Daybreak. Mr. Allred answered it will be nothing like Daybreak.

Motion: Councilwoman Sparks made a motion to approve Ordinance 2017-07 amending the official zoning map of Grantsville City, Utah by rezoning 5.05 acres of land at 300 South SR112 to go from a CS zone to a RM-15 zone. Councilman Critchlow seconded the motion.

Councilman Colson recused himself from voting on this item due to his ownership of a competing strip mall in the City. Councilwoman Allen explained her reasons for voting against this.

7. Consideration of a concept plan for Ginger Built, LLC and Hawthorne House Investments, LLC on the Clover Meadows Subdivision at approximately 400 South Worthington Street for the creation of ten (10) lots in the R-1-21 zone.

Jared Shupe represented Ginger Built, LLC on this item. Councilman Critchlow commented that in the Planning Commission Meeting, Gary Pinkham said he did not know why the small strip of land was left there. Mayor Marshall reported that strip of land bothers him. He felt it land locks the Tittensors' property and will create a weed patch. Mr. Shupe stated he would like to buy the Tittensors' property. He added there is a power pole that sits on the edge of their proposed road. He reported they may have to extend the PUE (public utility easement) to get all of their utilities in.

Barry Bunderson, with Civil Proj-X, asked if the Mayor was talking about Tract A. He explained they are trying to do their best with what the situation is. Mr. Bunderson disagreed with Mayor Marshall that the land is locked; there is access to the property. Mayor Marshall argued this will prevent the

Tittensors from developing their property. Mr. Bunderson explained the City requires sixty feet (60') of right of way and the public utilities want ten feet (10') for an easement. Councilman Colson asked whose property is being landlocked. Mr. Shupe and Mr. Bunderson answered Tittensors' property. Mr. Bunderson stated they have access to Worthington Street to develop their property. Mr. Bunderson pointed out this is a concept plan.

The Council, Mr. Shupe, and Mr. Bunderson discussed Track A, the easement, and the retention pond. Councilman Tripp pointed out his concerns with the retention pond. He stated if he votes against this, it would be because he does not find this concept plan attractive.

Councilman Critchlow said he talked with Randi Johnson about some of the weed issues. Mayor Marshall stated there have been hundreds of letters sent out about weeds.
