

FROM THE MAYOR'S DESK:

Mayor Brent K. Marshall

August 2013

Grantsville City's 4th of July Celebration was a great success. Thanks for all those who helped and participated. Many exciting events were held around the valley in July including many activities at the Miller Motorsports Park and a Three Dog Night Concert in Tooele. Congratulations to all on the success of your events. It made for a wonderful month here in the valley.

Our recycling program is underway and it has been well received by our citizens. There have been some minor problems that we are working on solving in a timely manner. If you have any question regarding the acceptable recyclable items please contact City Hall at (435) 884-3411 or visit our webpage at www.grantsvilleut.gov. As the recycling program started on July 1st, the City has not yet had enough time to obtain the costs that will be saved by utilizing this program. Once this information becomes available we will provide it to the public.

Fall Semester is almost here! Call USU Tooele at (435) 882-6611 today to see about finishing your degree or starting a new one.

The County Commissioners will be holding a Truth in Taxation Hearing on August 20th at 7:00 p.m. at the Deseret Peak Convention Center.

School will be starting at the end of August and it is important that we remember to drive carefully and be aware of the many students who will be crossing the streets.

We have a beautiful town with a rich heritage. Living in our community comes with a stewardship to take care of it and make it something we can all be proud of. Keeping our town beautiful takes the effort of every citizen. We are embarking on a city wide beautification project. If you would like to help or have any ideas please contact Barb Wittwer at barbandbryan@gmail.com or (801) 694-5232.

The Worthington Waterline Loop has been completed. This expansion of the Grantsville City water system creates a water loop that allows for the City to provide culinary water and fire suppression to those citizens living on the east end of town. This was a necessary expansion of our infrastructure to maintain these services for our citizens and to allow for continued growth and expansion.
