With Halloween the end of this month, we want to remind parents of a few safety precautions to make sure your little monsters, witches and ghosts are safe. Remember to make sure they are dressed appropriately for the weather. It is a good idea to have something reflective on their costume so they are more visible to vehicles. When they get home double check all candy to make sure it is in secure wrapping. Be safe and most importantly...have fun.

Grantsville City wants to remind everyone of the seriousness of cross connections in our irrigation lines. A cross connection is any connection between your City water and non-potable (irrigation) water or any other source or substance. These other sources include private wells. City and State regulations prohibit these actions. Serious health risks are associated with cross connections. You may also be charged for the cost of cleanup and repairs to the culinary water system. Your garden hose is the most common cross connection found at residences. Anything from the hose end pesticide applicators to sticking the end of the hose in a drain to unplug it has been implicated with some very serious effects. Please do not allow anyone to make any cross connections to your property's plumbing. This includes any connections between the irrigation and culinary water systems. If you have questions about cross connections please feel free to call Grantsville City at 884-3411. We will be glad to help and answer your questions.

The Grantsville CERT program will be having their annual training on October 10th and 11th at the Grantsville JR. High School. For more information regarding this training please see the attached flyer or call Leonard Tayon at 841-0990.

October is Fire Prevention Month. We would like to remind you at this time of year to complete your winter prevention checks on smoke detectors, carbon monoxide detectors, the cleaning of chimney flue pipes and the readiness of heating systems.

We have had some vandalism to the new restrooms at the city parks. We encourage anyone who knows anything about this to please report it. We are working on improving our parks and vandalism costs us all.
