

I am a lifelong resident of Grantsville and I have seen many changes in our small town most of them for the good. For the past 2 years I have served on the Planning Commission. As a member of the planning commission I have the opportunity to work with the residents of Grantsville on many issues before they go to the city council. This has given me firsthand knowledge of Grantsville's ordinances, the land use management and development code as well as general operation of local government. I have a Bachelor's degree in Business Management from Utah State University and I work for CenturyLink as a technical trainer supporting their repair call centers. Grantsville has been my family's home for many generations and I hope for many more. I am seeking a position on the city council to do my part to make sure that changes in the future are the right ones for the residents of Grantsville now as well as in the future.
